## EXPERIENCE

### Product Designer

Feb '25 - Present

#### Crosswise

- Sole designer for an AI-driven SaaS compliance platform, leading end-to-end product design from ideation and wireframes to high-fidelity mocks and interactive prototypes to drive multiple \$15K+ contracts with national financial institutions
- Designed multi-user centric flows around agentic and HCI platform interactions including logic defined workflow authoring, LLM chat based behavior, document management, and task management
- Established and maintained product-wide design system including typeface, color palette, and extensive component library
- Owned visual design for the marketing website, creating custom graphics and interactive 3D illustrations built in Spline
- Shipped continuous UX quality across 130+ PRs, improving usability, visual consistency, and clarity for every facet of the platform

### Founding Design Engineer

Aug '24 - Jan '25

#### Essay Eye

- Built an EdTech platform integrating a React frontend with an Express/MongoDB backend
- Led product design, research, and brand identity, including company logo and 5 Chrome Web Store marketing assets
- Coordinated development across founders and engineers, resolving deployment conflicts and site architecture decisions

### UI/UX Designer

May '22 - Oct '22

#### Aeyesafe

- Owned senior care product designs from ideation to hi-fidelity prototypes and handoffs
- Organized teams of 4 to 10 and provided feedback in design meetings and critique sessions to build innovative user experiences
- Assembled company design system covering typography, layout, color schemes, and component libraries

## SKILLS

### Design

UI/UX  
Graphic  
Visual  
3D  
Web  
Design Systems  
Information Architecture  
Branding  
Product Videography

### Engineering

React  
Typescript  
HTML  
CSS  
Git  
Tailwind

### Tools

Figma  
Spline  
Claude Code  
Screen Studio

## EDUCATION

### Santa Clara University

B.S. in Computer Science '23

## PROJECTS

### Heal Learn Evolve, Jazz 101, Hollow Knight

Collection of graphic design posters made for a mix of company and personal friends

### Spotify Playlist Filters

Spotify feature design project which refines user control over music listening experiences based on 23 user surveys
